

CLEARLY BETTER. TRITAN.™

# BRINGING QUALITY HOME

**BPA-free Tritan™ from Eastman** is engineered to be better—better than glass, better than stainless, better than any other plastic. And Tritan doesn't contain BPA, BPS, or any other bisphenols.

Unlike other plastics, it stands up to repeated use, is dishwasher safe and odor resistant, and won't haze after washing. Unlike glass, it won't shatter and is lighter weight and easy to handle. And unlike stainless steel, it won't dent or ding.

DRINKWARE AND BARWARE | WATER BOTTLES | BEVERAGE DISPENSERS | FOOD CONTAINERS  
SERVING DISHES | INFANT CARE PRODUCTS | KITCHEN APPLIANCES | LARGE APPLIANCES

## CLARITY

### **You'll think it's glass . . . until someone drops it.**

Products made with Tritan have a glasslike quality. And while other clear plastic or stainless products lose their luster after repeated dishwashing—products made with Tritan have looks that last. It retains its color and gloss even after hundreds of dishwasher cycles.

## DURABILITY

### **The breakthrough material that's practically unbreakable.**

Whether you drop it, throw it in a backpack, toss it around in shipping, or wash it hundreds of times, a product made with Tritan lasts. This durable plastic has much greater shatter resistance than other plastics and glass. It won't warp or crack in the dishwasher. And, unlike stainless steel, Tritan won't dent or ding.

## SAFETY

### **There is only one safety label you need.**

Tritan is cleared by the U.S. Food and Drug Administration as safe for use in housewares and packaging for foods and beverages. It's been tested by four third-party labs and shown to be free of any estrogenic and androgenic activity (EA free). Combine that with shatter resistance, and you've got a tough plastic that families trust.

## STYLE

### **Extraordinary elegance with everyday toughness**

Tritan stands out. Products made with this innovative material come in just about any shape and color—from neon sippy cups to crystal-like tumblers. So whether you want a modern look or a timeless design, when it comes to style, Tritan is clearly better.
