

I WANT TO HARNESS THERMAL ENERGY FOR PERSONAL USE.

POLARTEC® THERMAL PRO®

Polartec® Thermal Pro® fabrics are the most visually dynamic and technically advanced of the Polartec® insulation fabrics. Available in a variety of unique surface textures and patterns, many of which enhance performance, Polartec® Thermal Pro® fabrics are great styling options for virtually every end use. New high loft versions have achieved the highest warmth to weight ratios of any fabric Polartec® has ever offered. Other versions have the look of traditional wool with all the performance benefits of fleece. Polartec® Thermal Pro® is our most diverse family of fabrics.

Ideal Uses: Polartec® Thermal Pro® fabrics are ideal for sweaters, jackets, pants and accessories for a wide range of cool weather applications. New technologies make Polartec® Thermal Pro® the highest performing, best looking fleece around.

HOW DOES IT WORK?

The 100% polyester velour, pebbled, or shearing surfaces create air pockets that trap air and retain body heat, providing outstanding warmth without weight. These fabrics also offer excellent breathability and dry quickly. Many styles are also available with a water repellent finish that sheds rain and snow. Polartec® Thermal Pro® fabrics are available in a wide range of weights and styles, to provide the right level of insulation and most unique-looking fabrics for most outdoor activities. These fabrics represent the state of the art in fleece fabrics.

VERSATILE WARMTH

- Warmth without weight
- Highly breathable
- Fast drying
- Durable
- Easy care

Thermal Transmittance/Insulation Test:
The test is conducted on a Reeves Thermal tester, S/N 1623.
Insulation property is measured in clo/tog values. The higher the clo/tog value, the greater the insulation properties.

THERMAL PRO®

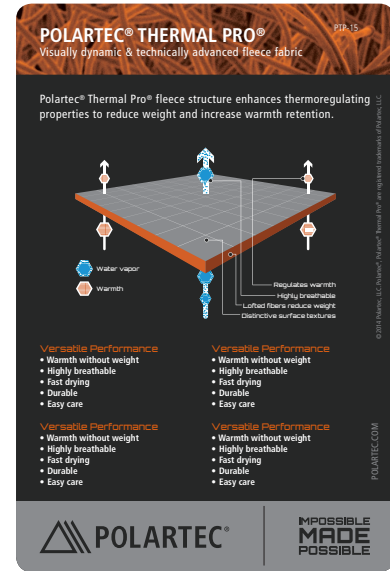

TECHNICAL HIGHLIGHTS

- Distinctive surface textures and patterns provide great styling options
- Provides warmth without the weight and bulk of traditional insulating fabrics
- Highly breathable to provide comfort in all activities; does not restrict the movement of moisture vapor
- Dries quickly to minimize heat loss
- Durable. Will outlast other fleece fabrics
- Easy care
